PROFESSIONAL SUMMARY

Detail-oriented IT graduate with hands-on experience in full-stack development, technical support, and business technology consulting. Proven ability to troubleshoot complex systems, manage data operations, and implement technology solutions that drive organizational efficiency. Adept at bridging the gap between business needs and technical delivery, with a track record of supporting enterprise systems across frontend, backend, and infrastructure layers.

WORK EXPERIENCE

IT Developer & Consultant · DanMari Nexus *Jul 2025 – Jan 2026*

- Delivered technical consulting services for business technology solutions, aligning IT strategy with organizational goals.
- Managed and maintained enterprise IT systems and databases, ensuring high availability and data integrity.
- Troubleshoot complex issues across frontend and backend systems, reducing resolution time through systematic analysis.
- Conducted system analysis and recommended technology improvements to senior stakeholders.
- Coordinated cross-functional implementation of IT solutions in collaboration with business units.

Web Developer · Visanest *Feb 2026 – Mar 2026*

- Designed and deployed Visanest website v1 and v2, delivering a responsive, production-ready web presence from brief to launch.

Technical Support Specialist · Nuuvend POS *Mar 2025 – Jul 2025*

- Provided end-to-end technical support for POS system implementation, covering hardware, software, and user training.
- Troubleshoot software and hardware issues in coordination with the development team, maintaining minimal system downtime.
- Authored and maintained system documentation, user guides, and technical manuals.
- Conducted QA testing for software updates and performed database management and backup procedures.

IT Support Assistant · Pick A Ride Zambia *Feb 2025 – Apr 2025*

- Managed office IT infrastructure, including computers, printers, and network connectivity.
- Performed data entry, backup procedures, database maintenance, and system access control.
- Supported system upgrades, software installations, and patch management for daily operations.
